Short HOWTO for Theses Template

Use this template with LaTeX 2e (TeXLive 2011 recommended). For inspiration, see `MastersThesis_example`. Should you have any question or comment, contact the template author mentioned in file named `FITthesis.cls`.

1 Bachelor's Thesis

Select source file `Template_BachelorsThesis.tex`. Rename it according to this pattern: `BP_Surname_Name_Year.tex`. Edit the template as you need: fill in your data, write your thesis' text etc. Use pdflatex command to process it.

2 Master's Thesis

Select source file `Template_MasterssThesis.tex`. Rename it according to this pattern: `DP_Surname_Name_Year.tex`. Edit the template as you need: fill in your data, write your thesis' text etc. Use pdflatex command to process it.
